

My Mum

My mum has stiff, short, straight, brown hair.
Her brown eyes look like mud mixed with water.
Her lips look like creases have been made in them.

She likes baking desserts like banana cake because they taste good when you eat them. I like my mum because she always helps me with my home learning and she makes me feel cool!

Mum's personality is kind and she always seems happy. Mum always has kind thoughts like making yummy birthday cakes, not ones that look boring and taste yuck. I like it when she does kind things.
